

COMPANY INTRODUCTION

Humetron Co. specializes in developing, manufacturing and selling medical devices and our main product is a stabilizer for heart surgery.

Humetron Co. improved functions of the product by collating requirements from thoracic surgery specialists related to surgical problems in an effort to help reduce the recovery period for patients and facilitate surgeries for the medical specialists.

We, Humetron Co. will never stop its endeavors to develop innovative medical devices to satisfy our customers and respect human beings.

Humetron Co. will put every effort into being a company that provides the best products and services.

PRODUCT DESCRIPTIONS

Our main product, HUMETRON is a stabilizer for heart surgery which includes Humetron stabilizer 1.0 and Humetron positioner 1.0.

HUMETRON STABILIZER 1.0 stabilizes the place for procedure and HUMETRON POSITIONER 1.0 is used for positioning the procedure area for operation with the heart beat maintained in heart surgery by removing the blood vessel in other regions and setting up bypass, as surgical procedure of coronary artery disease (Off-Pump CABG).

The stabilizer for heart surgery is a disposable medical device used for heart surgery in cardio-thoracic surgery and it is not allowed to reuse.
